W675 / 75 lb. cap.
Super Giant

W Series Features & Benefits

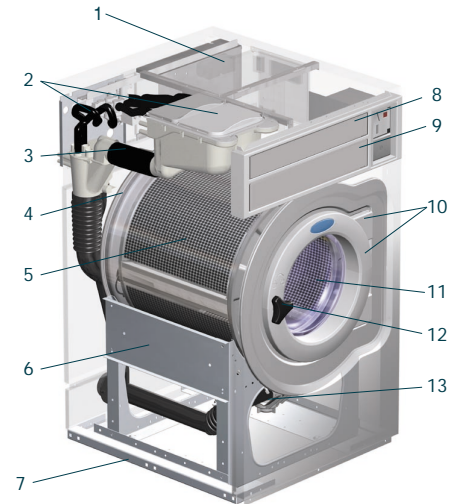

- Large door opening for easy loading and unloading.
- Hot, cold, warm, delicate and permanent press wash options to reduce time, water and energy use.
- Unibody construction eliminates welds for superior strength, reliability and durability.
- Unique wire harnesses with foolproof "quick disconnect" plugs simplify service.
- Interchangeable parts from one size and model washer to another.

Unique 4-Compartment Supply Dispenser

Accepts liquid or powder detergents, bleach and fabric softener for superior wash results that keep your customers coming back.

- 1 Easy service access to quick disconnect washer controls
- 2 Four-compartment supply dispenser
- 3 UPC compliant venting for external backflow prevention
- 4 Triple-seal, extra heavy-duty bearing & seal system for long life
- 5 High-grade stainless steel inner and outer drums for long machine life
- 6 State-of-the-art riveted frame design for a generation of reliable operation
- 7 No-weld, state-of-the-art special galvanized steel base frame prevents cracks and rust
- 8 English/Spanish instruction panel provides simple step-by-step operating instructions
- 9 User-friendly control panel features large, bright display
- 10 Heavy duty cast door and hinges
- 11 Large door opening for easy loading and unloading
- 12 Door lock system unlocks at the end of wash cycle
- 13 Front accessible, reliable, water-operated drain valve mounted directly to outer drum reduces water consumption, clogs and is easy to clean

Choice of front panel colors: almond, teal green or white; stainless steel option.

Wascomat Laundry Equipment

The Standard of Quality for Over 100 Years!

Classic Electromechanical Control

Choice of wash formulas – hot, cold, warm, permanent press and delicate with wash cycle options to reduce time, water and energy consumption (contact Wascomat for more information).

Choice of coin slide, drop coin meter or CashCard system.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Solid-mount machines require a custom concrete foundation, and are not suitable for upper-floor or above-basement installations. Contact Wascomat for more information and for availability of machines for electric services not listed. Specifications subject to change without notice. Wascomat assumes no responsibility for errors or omissions in this information.

For more information on the full line of Wascomat washers, dryers and low-cost financing, call Wascomat toll free today.
