

WASCOMAT WE16 WASHER & TD16 DRYER

Professional quality laundry equipment • Saves space, water and energy
Ideal for Coin and On-Premises Laundries

WE16 washer and the matching TD16 dryer are the perfect choice for:

Self-Service Coin Laundry
Apartment Laundry Room
Hotel & Motel Guest Laundries
Inns and Bed & Breakfast

Senior Resident Homes
Health Clubs
Beauty Salons/Barbers

The WE16 no-bolt-down, high-extract washer is designed to replace water-guzzling, energy-wasting topload washers.

- Wash better, reduce water and energy consumption up to 40%, saving over 18 gallons of water per wash load. That's thousands of gallons saved per year, per washer, which means less water to buy and heat, resulting in big energy and water savings.
- Washer/dryer – only 26-7/8" w x 27"d – fits in the same space as any topload washer.
- High-extract reduces drying time & energy consumption.
- Professional washers attract more business.

The energy-efficient Wascomat TD16 dryer provides safe, quiet and fast drying.

- 4500 watts (electric), 20,000 BTU (gas) heaters provide fast and efficient drying.
- Energy-saving balanced dry system draws air through the back of the drum.

Coin Metered Models

Non-Metered Models

*The WE16 washer and TD16 dryer
can be placed side-by-side or
stacked to save floor space.*

*Front mounted controls and extra
large doors on WE16 washers and
TD16 dryers provide easy access,
loading and unloading and comply
with ADA requirements.*

Wascomat Laundry Equipment

The Standard of Quality for Over 100 Years!

WE16 Washer

- Uses 40% less water and energy.
- Better wash results with reverse wash action.
- Quick and easy soft-mount installation and set-up.
- Extra-large see thru door for easy loading and unloading.

Airflow	200 cfm
Electrical requirements (gas heat)	120V/60 (1 phase)
Circuit breaker (gas heat)	15 Amps
Gas heating	20,000 BTU/h
Gas connection	1/2" NPT
Electrical requirements (electric heat)	120/240V 60Hz.(1 phase)
Circuit breaker (electric heat)	30 Amps
Tumbling speed	50 rpm
Temperature settings	4

** Add 7.25" to height for machines with coin meter housing.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Advise when placing order if dryers are for installation at altitudes in excess of 1000 feet above sea level, as this may require a gas-orifice change. Consult a qualified engineer to determine suitability for upper-floor or over-basement installations. Contact Wascomat for more information and availability of machines for electric services not listed. Specifications subject to change without notice. Wascomat assumes no responsibility for errors or omissions in this information.
